For your information. 5 May 86

Ulrich:

By the time you receive this I will have discussed INBIFOS participation in the Norpoth Symposium with Don Hoel and will have been in touch with you.

Best regards.

Gentlemen:

I have recently heard from Dr. Franz Adlkofer concerning the Essen, West Germany conference on "Passive Smoking" to be held in October of this year. He has advised that Professor Norpoth has informed him that "analytical data on environmental tobacco smoke will be dealt with as a part of the subject matter of the conference as these form the basis of the discussion on biological effects". Dr. Adlkofer continues to believe that we should participate in the conference. In addition, Professor Norpoth has informed him that epidemiological data would not be dealt with in the conference but Professor Norpoth was considering asking R. Peto to deliver an introductory paper on the subject.

I am enclosing a copy of the presentation made by Dr. Adlkofer at our joint ETS meeting held in London on April 8.

Sincerely,

Donald K. Hoel

Enclosure
